

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

EXCHANGE

*T*O an earnest desire on the part of the Colonial Dames of the State of New York for due appreciation and preservation of the early silver used in New York, New Jersey, and the South the collection here catalogued is due. By their zeal and energy it has been obtained and brought together for exhibition in The Metropolitan Museum of Art. The Trustees of the Museum join with the Colonial Dames in expressing their gratitude to the lenders, both private individuals and church authorities, whose generous coöperation has made such an exhibition possible, and to Mr. R. T. Haines Halsey for invaluable help.

EARLY NEW YORK

Silversmiths

BY

R. T. HAINES HALSEY

EARLY
NEW YORK
Silversmiths

NOTE

THE abundance and widespread ownership of plate in America in the seventeenth and eighteenth centuries is testified to in the wills and inventories of that period. The trade of the silversmith was well developed and lucrative, as in the absence of banks of deposit our forefathers hoarded their coin in manufactured form, thereby adding to the luxury of living. Most of this early plate was fashioned into simple forms and naturally was returned to the melting-pot when some necessity for funds arose.

Jamestown had its silversmith, Thomas Howard, whose name appears on the register of the Virginia Company of 1620. Research has, as yet, failed to discover any example of his handicraft. To the excellent craftsmanship of the silversmiths working in Boston throughout the last half of the seventeenth century the many heirlooms and pieces of ecclesiastical plate still in existence bear witness.

In New York, on the contrary, comparatively few pieces of the work of the early local silversmiths are

xiv *Early New York Silversmiths*

now to be found. Therefore, this exhibition of early plate owned by our Knickerbocker churches, and of domestic silver made by the silversmiths of New York, must necessarily be limited in quantity, and has been gathered only with the greatest difficulty.

Conditions in this vicinity in the seventeenth century gave slight encouragement to our silversmiths. There was little material for them to fashion, and the market for their wares was largely local. The policy of the directors of the Dutch West India Company in restricting the trade of New Amsterdam to Holland, cut off the profitable commerce with the English and Spanish colonies to the south, which brought such an influx of coin to New England, thereby enabling the establishing of a mint in Boston in 1652, and furnishing a supply for the melting-pots of the silversmiths. As long as the Dutch remained in possession here, and almost to the dawn of the eighteenth century, there was a dearth of coin; whatever silver drifted into the province quickly flowed out. Trade was carried on largely by barter. In the absence of coin, beaver skins formed the local standard of value, wampum the customary medium of exchange, and payments were frequently accepted in produce of various kinds.

Another reason for the comparative rarity of ancient plate made in New York is that at no time prior to the Revolution did our local silversmiths enjoy the lavish patronage which was bestowed upon their Boston brethren. The population of the province of New York during the colonial period at no time equaled one quarter of that of New England, and its trade was almost purely provincial, owing to the political conditions existing in America before the Revolution.

Boston controlled New England's trade even to the very borders of New York.

The contrast between the abundance of old plate made by Boston silversmiths still to be found in the cities and hamlets of Connecticut, and the scarcity of silver made by New York's craftsmen, can be explained only by the lasting influence of the short-lived New England Confederacy of 1643, composed of the four colonies of Massachusetts Bay, Plymouth, Connecticut, and New Haven, which was formed for mutual protection against the Indians, as well as against their Dutch neighbors in New York. Long after the English government dissolved this first attempt at combination between the colonies, the influence of it remained, and there was but little commercial intercourse between the people of Calvinistic New England and the New Yorkers, with their strong Dutch and Anglican church leanings—proximity to market counting for nothing in the face of such political and religious traditions.

It is but natural that the work of the earliest New York silversmiths, turned out in the face of such disadvantages, should be rather primitive, and fail to disclose the highly developed æsthetic craftsmanship of many of the pieces made in Boston.

While the plate hammered out by our local silversmiths in the last half of the eighteenth century followed closely the changing fashions of the English silversmiths, and contained the qualities of careful craftsmanship for which the period is noted, the earlier silver showed a decided Dutch influence.

In New England the various communion services of native manufacture were composed of miscellaneous

beakers, tankards, and caudle cups, and occasionally standing cups; in old New York, however, beakers alone were used for the communion. They were, in form and decoration, close copies of those sent out from Holland, examples of which are to be found in this exhibition. Careful comparison demonstrates that in the fashioning of these the Knickerbocker silversmiths were in no way inferior to their brothers in Holland. The engraving which lavishly decorates many of the pieces, was, as a rule, the work of less practised hands.

The tankards were especially fine. In form they followed closely the seventeenth century lines. As a rule, they were much larger and more imposing than those made by the contemporary silversmiths of New England, who faithfully followed the changing lines and fashions of those made in the mother country. They lacked the ribs which supported the handles on the seventeenth century tankards, and the domed tops, finials, and encircling bands, which characterize the different periods of English-made tankards. The mouldings on the base were elaborate, and often were surmounted by embossed bands of spiral wire and cut-work. The handles were heavy, and frequently were embellished with beaded ribs, or pieces of strap-work, which enabled the firm grip necessitated by the weight of the large potions of liquor the tankards contained. Few are found without the initials of the original owners engraved on the handles. Curiously enough many of these tankards were originally owned by women. They sometimes were marked with the joint initials of husband and wife, as was practically the universal custom in New England. Their thumb pieces were almost invariably spirals.

**DETAILS OF ENGRAVING ON BEAKERS BY DUTCH
SILVERSMITHS**

**DETAILS OF ENGRAVING ON BEAKERS BY HENDRIK
BOELEN**

**DETAILS OF ENGRAVING ON BEAKERS BY AHASUERUS
HENDRICKS AND GARRETT ONCLEBAGH**

DETAILS OF ENGRAVING ON BEAKERS BY AN UNKNOWN SILVERSMITH AND BY BENJAMIN WYNKOOP

The tips were formed of oval plates and shields. Cherub heads in heavy relief were often used for their embellishment, a feature almost never found in the old-world tankards; coins sometimes took the place of the plates on some of the cruder pieces. The covers were flat. Frequently current coins of gold and silver were inlaid in the lid. Early seventeenth century Dutch medals, probably heirlooms, were also occasionally thus used. The front edges of the covers were usually serrated.

The early teapots, as shown in the illustration opposite page xviii, were of a design peculiar to New York, and not used elsewhere in the colonies. In style, they followed to a certain extent the teapots of the period in the old world, but had greater height and capacity. They were used indiscriminately for both tea and coffee. The small globular teapots and tall coffee pots of the Queen Anne period, if made here, have probably disappeared in the melting-pot.

The personalities of certain New York silversmiths and the parts they played in the early social and political development of the city have hitherto been neglected by our local historians. Hence their works naturally have not possessed the glamour belonging to those made by the picturesque mint-master of Massachusetts, John Hull (the story of whose daughter's marriage to Samuel Sewall is one of the treasured legends of New England), or by that sturdy patriot, immortalized by Longfellow in *The Midnight Ride* of Paul Revere. Of necessity, they were men of integrity, as upon their honor alone depended the fineness of the silver which came from their melting-pots, for there was no such guarantee of quality in this country

xviii *Early New York Silversmiths*

as existed in the case of English silver—with its official hall marks.

The earliest local silversmith represented in the exhibition is Ahasuerus Hendricks, who made the beaker bearing the date 1678, lent by the First Dutch Reformed Church of Albany. He was an old-world silversmith, who sought to better himself by coming to New York, where he supplied the local demand for jewelry, rings, funeral spoons, and beakers, and, as well, fashioned the silver spears, pikes, and sword hilts affected by the militant burghers. We first find his name in New York on the list of those who swore allegiance to the King in 1675. His house, in Smith Street, appears on the tax list in 1677. He was one of those appointed in 1686 to assist in giving the inhabitants of the city better drinking water, and was, in that year, ordered to take care of the public well near his house. The position was one of honor and responsibility. The council at the same time ordered "that the City wells be forthwith made of stone and half of the charge of them to be borne by the inhabitants of every street proportionately and the other half by the City." He was elected constable for the North ward in 1687 and collector for the same district ten years later. In the records of the Dutch Reformed Church his name appears as a witness to the baptisms of the children of many well-known families from 1675 to 1693. He evidently was entrusted with the task of looking out for the unfortunates in the city, as we find that along with the vouchers of Johannes Kip and Teunis DeKay his voucher for "Sundry to y^e poore & Acc^t" was settled by the city in 1689.

Next we find Carol Van Brugh, son of the Johannes

TEAPOTS, BY ADRIAN BANCKER AND CHARLES LE ROUX.
LENT BY R. T. HAINES HALSEY

GROUP OF TANKARDS SHOWING TYPICAL DETAILS

Van Brugh who was appointed alderman by Governor Nichols in 1664, and who was long an important personage in the town. Carol Van Brugh's name appears on the tax list for 1677 as the owner of two houses, one on High (Pearl) Street and the other in the Fort "where ye Siversmith liv'd." His mother was Catharina Roelofse, the daughter of Roelofse and Anneke Jans. He was appointed High Constable in 1689. He evidently held a respected position in the community, as we find his name in the following document, issued in 1695, to alleviate the intolerable position of the consumer in New York caused by the irregularity in the weights and measures used by the tradesmen:

"May it Please your Excellency

"In obedience to your Excellencies command, we have examined the Memorial Exhibited to your Excellency by the Attorney Gen^{le} Concerning the Settling of a Standard and Appointing an Officer for the Regulation of Weights & Scales for Curr^t Gold & Silver, & are humbly of the opinion that it is very necessary to be done, & Pursuant Thereto Presume to recommend unto your Excellency Cornelius Vanderburgh & Jacob Boelen, Silversmiths as Persons of good Reputation and very fitt to be appointed by your Excellency for the keeping of the Standard of Silver & Gold weights and markeing all such as shall be used in this City & Province." . . .

Robert Lusting

John Barberie

A. D. Peyster

Gerard Douw

He made the gold cup presented to Governor Fletcher in 1693, the bullion for which was purchased for one hundred and six pounds sterling and turned

over to Vanderburgh to fashion. The council ordered that the revenue from the ferry be used for no other purpose until the bill for this was paid; evidently municipal ownership then was more profitable than as conducted here today.

The Leisler Rebellion was one of the most important happenings in the history of New York. Its results were the birth of a popular party in active opposition to the government, a party which worked for the country against the party for the crown. A study of the records of the Leisler Rebellion discloses the fact that Bartholomew LeRoux, the earliest of the famous silversmiths of that name who worked in New York for over half a century, took a most important part in this opening struggle of the masses against the classes. It is not difficult to picture this sturdy Huguenot silversmith standing in the Fort on the 26th of February, 1689, and voicing the popular indignation of his fellow-soldiers at the unwillingness of Leisler and his captains to secure the Fort absolutely against the threatened perils.

While to a large extent this interesting rebellion was caused by a revolt against the aristocratic faction, who had held control of the government under James II, yet the intensity of feeling which made the people rise almost to a man was aggravated by the fact that New York with its large Huguenot population was constantly in fear of the papists and French invasion, as it was well known that the French King had instructed his commanders that, in case the capture of New York was effected, "those of the pretended Reformed religion must be sent back to France." No better explanation of the state of affairs from this point of view

can be given than in the statement of this active Huguenot silversmith as follows:

“ A declaration of Bathomew LeRoux declareth that Col. Bayard having demanded of the Company of Captain Munvielle in the presence of the Leu^t Nicholson & others, of the Cap^{ts} of this City, as they were assembled in James fort of this City the reasons that obliged them to Appear in arms the whole company whereas they were ordered of their Captains that they should watch but half the Company & that they did oppose the Govo^r & he the Colonell at the fort Gate, & would not desist but would come & keep Guard with the whole company, & the said Bartho^l le Roux having given him this answer, which was the True reasons, as the Company did then and doth Still acknowledge to be the truth—

“ First—That we had a relation in this City, that the Papist upon Staten Island did threaten to cut the inhabitants throats & that the People had left their Plantations & were running the woods, & some gone with their familys in their boats and lay upon the river & further they threatened to come and burn this City & that M^r Dela Prearie had arms in his house for fifty men.

“ 2^{ly}. That we had Certain information that there was Eighty or a hundred men coming from boston & other places that were hunted away, no doubt not for their goodnes & that there were several of them Irish & Papist & the Governor had desighed to take them in the fort y^t which they would not suffer—

“ 3^d. That a good part of the Soldiers that were in the fort already were papist & that they thought themselves not secure, to be so guarded & if it be so that

but half a Company should be permitted to keep guard, they would not be above ten or fifteen men in the fort & therefore they thought themselves not secure in the fort so weak.

“ 4th. That the same day there was Complaint made that Co^l Dongan, his Brigantine was fitted out with a considerable Quantity of Guns & amonitions & made Water and provisions & that her whole loading was no other than if she had been designed for some war-like design & notwithstanding was Suffered to depart this port without interruption, these reasons did obleidge us to Come with he whole company to secure ourselves, the best we could, against the fears that were put upon us.”

The animosities stirred up by the Leisler Rebellion and death of Leisler were not easily forgotten. The following affidavit against another of the seventeenth century silversmiths represented in the exhibition, John Wendover, well illustrates the bitter and lasting feeling toward the dominant party. The offense with which Wendover was charged in 1694 was evidently not a heinous one, as we find that he was elected alderman in 1698. He carried on his trade in New York until his death in 1727.

“ The Examinant being duly sworn upon the holy Evangelists & examined Saith y^t last night att seaven or eight of the Clock or thereabouts he the Examint^t was in y^e house of Edward Buckmaster of y^e said Citty Inholder in Company with one John Windower of y^e said Citty Goldsmith & severall others and that the s^d John Windower did throw a piece of eight upon the Table & speaking to this Examinant did say there is your money or to y^t effect, that he the examint^t did

refuse to take itt & said that would not doe; upon w^{ch} the said John Windower threw down another Piece of eight & said there take itt that's enough & called for y^e scales, & said but Ile pay you for itt, & Immediately did lift up his hand & did strike y^e said examin^t upon y^e face upon which the said Edward Buckmaster being then High Constable & hearing a noise came into y^e Room & Commanded the Peace; & the said Examin^t further saith that after the peace was Commanded the said John Windower did say that Leisler & Milborne wer murdered which he would make appear & y^t he would stand up for Jacobus Leisler while he had a drop of blood in his body and that their should be others hanged in a short time to Ballance the said Leisler & Milborne."

The Boelens, Jacob and Hendrik, father and son, were Dutch silversmiths, who came to New York shortly after 1680 and possessed a large share of the silversmith's trade in this city in the closing years of the eighteenth century. Much of their work has been secured for this exhibition. They probably worked in partnership. Their marks I-B and **HB** are similar in size and character of letters and both are inclosed in the same peculiar oval with serrated edges.

Jacob Boelen's name appears, in 1686, on the list of members of the Dutch Church. The city records bear much testimony to his activity in behalf of civic development. He was assessor for the North ward from 1685 to 1694. In 1689 he was appointed brant-master by the council, when it was ordered that "five Ladders be made to serve upon occasion of Fyre, with sufficient hooks thereto." He was one of the special assessors appointed in 1693, "to assess & rate the in-

habitants Residence & Freeholders (the) 1725 proportion for the City for Raising £6000 for payment 300 volunteers to reinforce the Frontiers at Albany May 1693-4," and the following year "to raise the funds to pay for the 150 troops sent as a reinforcement for the frontiers of Albany." He was elected alderman of the North ward in 1695. In 1696 he was appointed on the committee for straightening Broad Street and for "the consideration of the making of the sewer in that locality." Their report reads that "1158 feet of sewer would be needed, every foot of which would cost Fifteen shillings." He was appointed on the committee for estimating the cost of constructing the new City Hall, selecting its location, and investigating the best means of raising funds for the cost of the same, also on the committee for repairing the fortifications and powder house on Point Hollondia. He was alderman for the North ward in 1697 and was among those who petitioned to restore the bolting monopoly which had given to the burghers of New York City alone the privilege of bolting all flour and baking all bread for export in the province; the abolition of this monopoly had caused great distress in commercial circles in New York. In this connection it may be interesting to note that the flour barrels and wind-mill sails on the arms of New York City were selected as typical of this milling monopoly.

Hendrik Boelen apparently paid little attention to public affairs, but devoted himself to his trade, which he carried on successfully almost to the middle of the nineteenth century.

The earliest native silversmith represented in the exhibition is Jacobus Van der Spiegel, the maker of

the baptismal vessel lent by the South Reformed Church of New York, and also of the tankard of unusual size shown among the plate made for domestic use. He was the son of Laurens Van der Spiegel and with his brother Johannes followed the profession of silversmith.

The plate made by Jacobus Van der Spiegel carries with it memories of its maker's military services along the Albany frontier, as well as of the days when fear of the capture of New York by the French was ever terrifying its citizens. We find his name on the list of "ye people sent to Albany" on the 13th of March, 1689, upon orders from Leisler to protect the northern frontier against the impending French invasion, also his commission as ensign in Captain Walter's company in the same year, and a record of his captaincy in the following curious voucher:

"In Albany Anno do 1691. His Excellency Co Henry Sloughter Capt. Genll: and Governour in Chief off the Provence of New York. To the Companes to drink upon the newes of yo'r Excells Happie Arry-vill.*
1 barrl double beer.

To Capt. Van der Spegle Comp'a. Item £0.14."

In 1694-5 he was assessor for the West ward, and the following year one of those "sworn to assess the moyety of Seaven hundred and ninety Seaven pounds Nine Shillings Pursuant to An Act of Gen^l Assembly

* Mrs. Van Rensselaer in her "History of the City of New York" clearly points out that illiterate Dutch pens dealing phonetically with unaccustomed sounds explain the curious spelling in the records of the 17th century; thus the same persons frequently appear under various names. Carol Van Brugh and Cornelius Vanderburgh were identical personages.

Entituled an Act for y^e Raising one hundred & twenty Effective men to be Employed by his excellency for the Reinforcing & Strengthening the Fronteers of the Province att Albany."

He was elected to the highly honorable position of constable in 1698. His family had long been prominent in social life. One of his sisters was married to Isaac de Forest, and another to Rip Van Dam, who for thirty years was one of the council of the city. A comparison between the portrait of this famous old rebel and the head with flowing wig in heavy relief, which forms the unusual decoration of the tip of a tankard shown in the exhibition, allows the fancy that Van der Spiegel embellished some of his silver with the portrait of his popular brother-in-law.

Garrett Onclenburgh, who made two of the communion beakers in the exhibition, belonging to the Reformed Dutch Church of Flatbush, was of an old and socially prominent New York family and an active member of the Dutch Church. His standing in the community was high, for he was elected to the office of assistant alderman for the successive years 1700-3. The office of alderman or assistant alderman was even more important in the early days than now. The city was divided into six wards: North, South, West, East, Dock, and Out. Each of these was represented by one alderman and one assistant alderman. The twelve constituted a general court for the city with powers of supervision far exceeding any of the governmental bodies of today. Along with other powers they possessed the right of fixing the prices of all necessities of life, and they regulated the price of wheat, the size and quality of loaves, and in many ways had more ex-

treme power than advocated by the most radical exponent of governmental supervision today.

While serving out his various terms, Onclabagh was active on various interesting and important subcommittees. One important act of his was the farming out of the ferry to Brooklyn. The contract was an involved one and called for the maintenance of a public house of entertainment, and of two scows and two small boats for the carrying of passengers. The charges prescribed were eight stivers of wampum, or a silver two-pence, for the ferriage of an individual. "People in company" were carried at lower rates. The tolls were fixed for horses and beasts, hogs, barrels, and various products of the farm.

Onclabagh became involved in certain factional disputes and lost the favor of the people, which he regained, but fell from grace in other ways, as upon his election to his former office in 1713 his colleagues on the board passed the following resolution:

"Whereas Garrett Onclabagh who was lately Elected to serve in the Office of Assistant of the North Ward of this City for the year Ensueing is A Person of Evil fame and Reputation and hath been Convicted of Coyning the Current Money of this Province and since hath also been Convicted of Champerty, it is therefore the Opinion of this Court that the said Garrett Onclabagh is not qualified to serve in the said Office and it is ORDER'D (Nemine Contra Dicente) that the Mayor and Recorder do refuse to swear him into the said Office."

After an investigation lasting several months, the charges were upheld, his place on the board declared vacant, and a successor appointed.

xxviii *Early New York Silversmiths*

Another silversmith of interesting family connections was Cornelius Kierstede,* who took out his Freeman's papers in 1698. His grandfather Hans was the famous surgeon, and a very important personage. He married Sarah Roelofse, the daughter of Anneke Jans by her first husband. Sarah was well acquainted with the Indian language and acted as interpreter for Peter Stuyvesant. It was at their wedding that Governor Kieft, taking advantage of the condition of the guests "after the fourth or fifth drink," induced them to subscribe very liberally toward a new church in the Fort. Rum and religion went hand in hand in New Amsterdam. After working in New York for a quarter of a century Kierstede migrated to New Haven and much of his work done there is still to be found in the cities and hamlets of Connecticut. A superb tankard bearing his mark may be seen in the DePeyster room of the New York Historical Society.

Members of the Van Dyck family for half a century held a large proportion of the silver trade in New York, and are well represented in the exhibition.

Peter Van Dyck was a New Yorker by birth and possibly learned his trade from Bartholomew LeRoux, whose daughter Rachel he married. We find his name in 1704 on the "list of men that have signed to goe with Capt. Nicholas Evertsen on an expedition against a french privateer which appeared off the coast." This expedition set out bravely, but on obtaining a sight of the enemy, the motley crew refused to man the ship and the expedition ignominiously sailed back to New

* He was the son of Hans Kierstede and Jannetje Lockermans and was born in 1674. He married Zaza Elsewarth.

York in safety. Evidently no reflection was cast upon Peter Van Dyck's bravery on this occasion, as in 1708 he was sworn as constable of the East ward. In 1730 he was elected assessor.

Peter Van Dyck was an active participant in the factious strife which kept the city in a state of political unrest during the administration of Governor Cosby, and, along with his fellow-silversmiths, Charles Le-Roux, Tobias Stoutenburgh, and Philip Goelet, affixed his name to the petition herewith; which was made in protest against the illegal election of Adolph Phillipse in 1737, an election with the same issues at stake, and as exciting as that of the famous election at East Chester, in 1733.

"To the Honour^{ble} GEORGE CLARKE Esq.
Leiv^t Governour & Command^r in Chief of New-
Yorke & Territorys thereon Depending in America.

"The Petition of the Subscribers

"Most Humbly Sheweth

"That wee have this day seen or heard of the most Barefaced Villany Committed by Will^m Cosby Esq^r present high Sheriff of this Citty & County of New-York in the Face of the world in Declareing Adolphe Philipse to be chosen Representative for this Citty and County Contrary to the Duty of his Oath and office.

"Wee therefore most Humbly pray that our Lives Libertys and properties may no Longer Remain Committed to the Said William Cosby; but that he may be forthwith removed from his said Office and the S^d Adolph Philipse may not be qualified to Sit as an Assembly man untill a fair Hearing of the matter and y^r Petitioners shall Ever pray."

There is an excellence of artistic conception and

workmanship found in the plate made by Peter Van Dyck (see pages 9 and 60) which allows the assertion that as a silversmith he had no superior in America. The personal touch is ever there, and a perusal of his will (proven in 1750) brings with it the thought that this good old silversmith loved his handiwork, as we can see by his desire to leave "To my daughters Hannah and Cornelia, each a silver mugg. To my daughter Sarah my smallest silver tankard. To my daughter Mary my biggest silver tankard. To my daughter Lena my silver teapot. Each of these articles are to be valued according to weight and reckoned as part of their share."

His son, Richard Van Dyck, was also a silversmith and is represented in the exhibition. Occasional advertisements in the New York papers from 1753 to 1756 show that he gradually drifted away from his early profession and became an importer of "pictures, European and Indian goods, looking glasses, sconces and Florence oyl." Very little plate bearing his mark has survived.

Another silversmith of the early eighteenth century and of interesting lineage here represented was Bartholomew Schaats, a descendant of that interesting character, Domine Gideon Schaats, who, after being ordained by the Classis of Amsterdam, came to New Amsterdam in 1652 in the ship *Flower of Guelder* under contract with the patron Johannis van Rennselaer "to be missionary to the Indians, teacher of the catechism, and school-master for old and young," and later, in 1657, became minister of the church at Beverwyck (Albany), which charge he held until his death in 1694. Two communion beakers in the ex-

hibition were acquired by the congregation in Albany under his pastorate.

Bartholomew LeRoux, who spoke in justification of his fellow-citizens' seizure of the Fort, lived on the west side of Broadway a little south of Morris Street. His activities in the Leisler Rebellion in no way caused him to lose caste with the party in power, as he was elected to various positions of responsibility—constable, assessor and collector, and in 1703 assistant alderman, to which office he was re-elected annually for the next ten years.

His son Charles successfully carried on the silversmith's trade built up by his father, who died in 1713. Charles LeRoux lived at a period even more interesting and epoch-making than that of his father. He was long the official silversmith of the city; the records show that, from 1720 to 1743, to him alone was entrusted the making of the various gold and silver boxes, which, engraved with the arms of the city, inclosed the city seal, which accompanied the engrossed freedom of the city granted by the common council for noteworthy service and to highly honored visitors.

He was an engraver as well, and was instructed to make the stamps for the issue of bills of credit of 1734 and 1737, and deliver them to William Bradford and John Peter Zenger, respectively, for the printing.

Snuff boxes made by Charles LeRoux figure as tokens of the city fathers' gratitude for services rendered. Of these boxes, not the least interesting was the one presented to Captain Peter Solgard in 1723, "who lately on A Cruise upon this Coast in the due Execution & discharge of his Duty upon Intelligence given him sought for Pursued and Engaged two Pyrate

Sloops Commanded by One Low (A Notorious & Inhumane Pyrate) one of which Sloops he took After a Resolute Resistance & Very much Shatter'd the Other who by the favour of the Night Escaped, twenty Six of which Pyrates So taken being lately Executed at Rhode Island, not only Eased this City and Province of A Very great trouble but of A Very Considerable Expence &c: ”

Its cost was twenty-three pounds nineteen shillings, and it was decorated with “ the Arms of this Corporation handsomely engraved on one Side thereof, and on the Other his Majesties Ship Greyhound Engaging two Pyrate Sloops and A Motto Over them (Viz^t) Quaesitos Humani Generis Hostes Debellare Superbum.”

Another was voted at the time of the capture of Gardiner's Island from the Spanish in 1728 to Captain Covil Mayne, Commander of his Majesty's ship Biddeford, who “ did lately at the Request of his Excellency the Honble John Montgomerie ESq^r Governour and Cap^t General of this Province, with the Greatest Chearfulness Bravery and Expedition (Notwithstanding that the Man of Warr under his Command was at that time unrig'd in Order to refit) in few hours make ready and proceed against A Spanish Privateer Ship which had landed A Considerable force and already made barbarous havock and depredation upon the Coasts of this Province (at A time when his Majesties Station Ship the Shoram was unhapily disabled by the loss of her Masts in her late dangerous Voyage from Great Brittain and rendred intirely incapable of putting to sea) and by the Terror of his Majesties Arms under the Conduct of so Gallant and Experienc'd A Com-

mander (which too soon reach'd the Ears of the Enemy) drove them from these seas by means whereof our Villages that had lately felt and were hourly Exposed to their Brutal Ravage were freed from their Just fears and Apprehensions, our Alarms Ceased, and our Trade was again successfully Opened". . . .

LeRoux was assistant alderman at the time of the trial of the printer John Peter Zenger, and was one of the council who voted in 1735 a gold snuff box, five and one-half ounces in weight to be made by Charles LeRoux, to Zenger's counsel along with the following resolutions:

. . . . "WHEREAS Honour is the Just Reward of Vertue and Publick Benefitts demand A Publick Acknowledgment WE therefore under A Gratefull sense of the Remarkable service done to the Inhabitants of this City and County by Andrew Hamilton ESq^r of Pensilvania Barrister at Law by his learned and Generous defence of the Rights of Mankind and the Liberty of the Press in the Case of John Peter Zenger lately tryed on an Information Exhibited in the Supream Court of this Colony, do by these presents bear to the Said Andrew Hamilton ESq^r the Publick thanks of the Freemen of this Corporation for that signal service which he Chearfully undertook under great Indisposition of body and Generously performed Refusing any fee or Reward. . . ."

Charles LeRoux was seal maker to the city as well as engraver and silversmith. In 1735 he was one of the committee of four aldermen appointed to "Advise with Counsel learned in the Law, what Methods are legally to be taken by this Corporation to Recover the Seal of the Said Corporation out of the

xxxiv *Early New York* Silversmiths

Custody of the present Mayor who detains the same Contrary to A Law of this Corporation;"

As a result of their consultation and report the city records note that "M^r Mayor having Consented to deliver the seal of this Corporation to the Common Clerk of this Corporation for the use of the Said Corporation, it is ORDERED that A seal be forthwith made and delivered to M^r Mayor; which Seal is to be Called the seal of the Office of Mayoralty of the City of New York, that the Said Seal be Round something larger than a Dollar, the City Arms to be Engraved thereon, and that the Motto be (City of New York Seal of Mayoralty) and that M^r LeRoux make the same with all Expedition."

Charles LeRoux's name is also found on the list of the Grand Jury, who in 1736 . . . "Do Certifie that James Alexander ESq^r * in the several Offices that he has Enjoyed within this Colony of New York, has Executed the same Offices to the General satisfaction, and without blemish in his Reputation, as far as we have heard or believe. That he has also for many years last past practiced as an Attorney and Council at Law with a fair and upright Character, that he hath been and Still is Generally Reputed and Esteemed to be a true friend to the late Glorious Revolution and to the Protestant succession in the Illustrious House of Hanover and well Affected to his present Majestys Person and Government. And that the Said James

* James Alexander, one of the leaders of the patriotic party, was disbarred from the practice of law by Governor Cosby, while acting as one of the counsel for Zenger at the very commencement of this all-important trial, the outcome of which assured to New York City an unbridled press and freedom of political thought.

Alexander is A Man of good life and of a good Estate within this City and Colony to the best of our knowledge." . . .

Civic development, warfare, and politics are not the only associations which hover around this early Knickerbocker plate. The name of William Huertin (who made one of the porringers shown in the exhibition) involuntarily calls to mind the coming of the Palatines and the founding of the Lutheran Church in this state through the following quaint translation of an inscription (signed by Susanna Sibylla Huertin, his wife, the daughter of the famous preacher) upon the tombstone of the Rev. Joshua Kocherthal at West Camp, New York.

"Know Traveler, under this stone rests, beside his Sibylla Charlotta, a real traveler, of the High Dutch in North America, their Joshua and a pure Lutheran preacher of the same on the east and west side of the Hudson river. His first arrival was with Lord Lovelace, in 1709, the first of January. His second with Colonel Hunter, 1710 the Fourteenth of June. The Journey of his soul to Heaven on St. John's day, 1719 interrupted his return to England. Do you wish to know more? Seek in Melanchtons Fatherland, who was Kocherthal, who Harschias, who Winchenback. B. Berkenmeyer, S. Huertin, L. Brevort."

Huertin took a very active part in the controversy which arose among the congregation of the French church, L'Église du Saint Esprit, in Pine Street in 1724, when the consistory dismissed the elder pastor, the Rev. Mr. Rou, at the insistence of the adherents of the Rev. Mr. Moulinar (whose son's handiwork is shown in the exhibition). He strenuously supported

the claims of the younger pastor Moulinar, a man then "most distinguished for his peaceful Spirit, dull parts, and unblameable conversation" against the elder pastor Rou—"a Man of Learning, but proud, pleasurable and passionate"—in the dissensions in the consistory which resulted in the dismissal of Mr. Rou. Mr. Rou took his case before the city fathers, who decided his dismissal was irregular, but advised the congregation to adjust their difference amicably among themselves. Mr. Rou then filed a Bill in Chancery before the Governor, at which action the supporters of Moulinar, cognizant of Governor Burnet's predilection for the plaintiff, withdrew in a body from the church.

It is not the province of this monograph to detail the names and histories of the two hundred silversmiths who worked in New York during the seventeenth and eighteenth centuries. Many of their names are closely identified with our city's progress and their descendants are legion. Possibly enough has been told to associate their work with the history of our city. They were a sturdy lot of men; some of them braved the dangers of settling in an unknown country and took an active part in the building up of the town; others lent their influence to the party of democracy during the long struggle for political independence, which only ended with the birth of the republic. Their work was honest, and represents the very beginning of the development of the arts and crafts in this city of ours, and must have an added interest in that it perpetuates the artistic conception of men so closely identified with the early history of our great metropolis.

R. T. H. HALSEY.

October 1, 1910.

Figure 1. The effect of the number of trials on the mean accuracy of the responses ($n = 10$) as a function of the number of items presented at once. The error bars represent the standard error of the mean.

BEAKER WITH COVER, DUTCH, ABOUT 1700.
LENT BY SAINT MARY'S CHURCH, BURLING-
TON, NEW JERSEY

PART I
The work of
Dutch Silversmiths

UNKNOWN MAKERS.

1. **BEAKER WITH COVER.** Flaring cylindrical body with moulded, repoussé base; nulling on cover, surmounted with a crown on six scrolled brackets; body engraved with band of interlaced strap-work inclosing scrolls with birds, scrolls with cherubs' heads, drops of fruit and flowers, and three emblematic birds; cover engraved with scroll having hunter, dog, deer, and birds. H. 11¼ inches.

Mark: None.

Inscription: *a.* BRT (monogram); *b.* BRT double interlace (script); *c.* BRT (monogram).

Lent by Saint Mary's Church, Burlington, N. J.

Made about 1700, and probably from the Low Countries. See the note on this church under No. 155.

2. **BEAKER.** Engraved with a band of interlaced strap-work inclosing scrolls of flowers and leaves, depending bunches of fruit alternating with cartouches, having figures of amoretti, inclosing figures of Faith, Hope, and Charity. Below, three birds with olive branches. H. 7½ inches.

Marks: (3) Haarlem marks.

4 Part I Dutch Silversmiths

Inscription: Dieakony ant Fort Orange in Nieünerlandt anno 1660.

Lent by the First Reformed Church, Albany, N. Y.

See also under Ahasuerus Hendricks, American maker.

In March, 1624, the ship *Nieu Nederlandt* sailed from Amsterdam, carrying thirty families, chiefly Walloons, and a few Dutch freemen. The majority of the families proceeded up the river. Under the shadow of the clay hill on which the Capitol now stands, they built rude huts and a little log fort which they named Fort Orange.

The Albany (Beverwyck, Rensselaerwyck) Church was founded in 1642, fourteen years after that at New York. Its first pastor was Joannes Megapolensis, who afterwards assisted Polhemus at Flatbush and Flatlands.

"Domine Megapolensis" was to receive as salary for six years of pastoral labor "1100 guilders (\$440), 22½ bushels of wheat, and two firkins of butter for the first three years, and if his labors were satisfactory to the patroon, he was to receive an additional amount of 200 g. (\$80) per annum for the succeeding three years." (Hist. Discourse on Reformed Protestant Dutch Church of Albany.) The pastor at the time the two pieces of silver here catalogued were given was Gideon Schaats, who had been a schoolmaster at Beest in Holland before coming to America. He was the second minister of the church, serving from 1652 for more than thirty years.

3. BEAKER. Flaring cylindrical body with moulded base; engraved with a band of interlacing strap-work inclosing scrolls of flowers and leaves, three groups of depending scrolls, drops of fruit and flowers, and, below, three birds. H. $7\frac{1}{8}$ inches.

Marks: (3) Haarlem marks.

Inscription: H  W

Lent by the Collegiate Church, New York.

In New York City the Reformed Dutch Church was called the Collegiate Church. Worship was conducted in different buildings, in the Fort from 1628 to 1693; in Garden Street, called the South Church, from 1693 to 1813, when the edifice was burned; the Middle Church, Cedar Street, corner of Nassau, from 1727 to 1844, when the building was given up; in the North Church, on Fulton Street, corner of William, from 1769 to 1874; in Ninth Street from 1836 to 1861; in Lafayette Place from 1839 (called the Middle Church from 1855); in Twentyninth Street and Fifth Avenue from 1854; and Fortyeighth Street and Fifth Avenue from 1868.

The Garden Street congregation separated from the Collegiate Church after the fire and became known as the South Dutch Church.

4. BEAKER. Flaring cylindrical body with moulded and repoussé base; engraved with a band of interlaced strap-work inclosing scrolls of flowers and leaves, three depending scrolls inclosing cartouches with figures of Fortitude, Strength, and Wisdom, and below, three birds with olive branches. H. $7\frac{1}{4}$ inches.

Marks: (3) Haarlem marks.

Inscription: H  W

Lent by the Collegiate Church, New York.

4. 1. BEAKER. Border of interlaced bands inclosing scrolls of flowers and leaves, with depending bunches of fruit; between these, figures with bows and arrows and cartouches inclosing figures of Faith, Hope, and Charity; below, birds with olive branches. H. $6\frac{3}{4}$ inches.

Marks: (3) Haarlem marks.

Inscription: Catharina Van Cortlant (script).

Lent by the First Reformed Church, Tarrytown, New York.

The church at Tarrytown, formerly called Philipsburg, was established in 1697. The silver has been "used since the church was founded. They were given by Frederic Flypse or Fredryck Flypse at the time the church was built. The baptismal bowl originally set in a kind of ring that extended out from the pulpit."

CHALICE, SWEDISH, XVIII CENTURY. LENT BY HOLY
TRINITY CHURCH, WILMINGTON, DELAWARE

PART II

The work of

Swedish Silversmiths

UNKNOWN MAKER.

5. CHALICE WITH PATEN-COVER. Spherical bowl; hexagonal stem; round knop with two rows of repoussé scallops inclosing engraved flowers and letters S M I N R I between four moulded bands; wide, flaring, moulded foot sexfoil. H. 9½ inches. Paten, D. 6 inches.

Marks on chalice: C. B., in circle with crown above. Portions of two others. These marks are those of Christiania and date from the early part of the eighteenth century.

Inscription: Chalice; *a.* Fahlū Bergslags Schenck: til H: Trefal-Kirkiopo China i Penfylvanien Ao 1718/Afsefor och Bergmästare: Herr: Anders Swab: *b.* H: Erick Biörck-P-Fahlū-Fordom Wid China i Penfylvanien: *c.* Tag och drick: thetta är min blod: *c.* Tager Ock att: dätta är min Lekomen. Paten; Tager ock att dätta är min Lekomen (script).

Translation: *a.* Gift of the Mining Company of Fahlun to Holy Trinity Church at Christina, in Pennsylvania, A.D. 1718, Assessor and Mine Master, Andrew Swab. Magister Eric Bjork,

8 *Part II Swedish Silversmiths*

Pastor of Fahlun, formerly at Christina, in Pennsylvania: *b.* Take and drink, this is my blood. Paten; Take and eat, this is my body.

Lent by Holy Trinity Church, Wilmington, Delaware.

This chalice is a reminder of the small colony of Swedes who settled in Delaware in 1640 and 1641, remaining there only until 1655, when Governor Stuyvesant with the representative of his church, Dominie Megapolensis, turned them out after a bloodless conflict. The Rev. Eric Bjork, pastor of Holy Trinity Church from 1696 to 1714, after he had been recalled to Sweden and appointed pastor at Fahlun, sent this chalice to Wilmington as a gift.

6. BOX WITH COVER. Oval, with moulded cover. L. $3\frac{7}{8}$ inches.

Marks: None.

Inscription: Trinity Church A.D. 1718.

Lent by Holy Trinity Church, Wilmington, Delaware.

EBORACENSIS. 1744. c. Reformed Protestant
Dutch Church of the City of New York (script).

Lent by the Collegiate Church, New York.

9. BEAKER. H. 7 inches.

Mark: A B, in oval.

Inscription: None.

Lent by the Rochester Church, Accord, New York.

The Rochester Church was organized in 1701, the beginning of its life coinciding with that of the community itself. It shared for several years the fostering care of the Rev. Petrus Vas and the Rev. G. W. Mancius of Kingston. Eager for a minister of their own, the churches of Marbletown, Rochester, and Wawarsing in 1751 sent Jacobus Frelinghuysen to Holland to complete his studies at the University of Utrecht and return as their clergyman. He was licensed and ordained by the Classis of Amsterdam and sailed for America, but died during his passage over.

10. CREAM JUG. Pear-shaped body with spherical bottom; serrated edge; three cabriole legs; double scrolled handle. H. $4\frac{1}{8}$ inches.

Mark: A B, in oval.

Inscription: None.

Lent by Luke Vincent Lockwood.

11. PORRINGER. Handle with three piercings; with a modern cover. D. $5\frac{1}{4}$ inches.

BAPTISMAL BASIN, BY ADRIAN BANCKER. LENT BY
THE COLLEGIATE CHURCH, NEW YORK

Mark: A B, in oval.

Inscription: C^DB

Lent by Mrs. Robert Remsen.

12. TEAPOT. Bell-shaped; moulded lip and shoulder band; splayed foot; tall, moulded, domed cover with finial; octagonal curved spout; straight handle sockets; double scrolled wood handle with silver tip. H. $7\frac{1}{2}$ inches.

Mark: A B, in oval.

Inscription: a. I^BE; b. L.S.W. (Gothic).

Lent by R. T. Haines Halsey.

13. PORRINGER. D. 5 inches.

Mark: A B, in oval.

Inscription: a. S M; b. Modern record.

Lent by Judge A. T. Clearwater.

14. TANKARD. Flat domed lid; double scroll purchase; hinge drop; scroll handle (half rat-tail), with oval on tip. H. $6\frac{5}{8}$ inches.

Mark: A. B., in oval.

Inscriptions: a. C T E interlaced (script); b. A^CI

Anonymous loan.

15. PORRINGER. Handle with three piercings.

D. $5\frac{1}{8}$ inches.

Mark: A B, pellet below, in a heart.

Inscription: H^R*C

Lent by Mrs. Robert Remsen.

SIMEON A. BAYLEY. *Worked in New York, 1790-1796.*

16. TEAPOT. Oval; sides elaborately engraved with garlands, borders, and panels; beaded edges; bell-shaped cover with urn finial; straight handle sockets. D. $6\frac{1}{8}$ inches. H. $6\frac{7}{8}$ inches.

Mark: BAYLEY, in shaped rectangle.

Inscription: I E C interlaced, (Euphemia Colville) (script).

Lent by R. T. Haines Halsey.

JOHN BEDFORD. *Worked at Fishkill, Dutchess county, from shortly after the Revolution until his death in 1834.*

17. SUGAR TONGS. Narrow, engraved border; acorn-shaped tips. L. $6\frac{1}{2}$ inches.

Mark: I Bedford (script), in rectangle.

Inscription: I W, interlaced (script).

Lent by R. T. Haines Halsey.

THAUVET BÉSELEY. *Admitted as a Freeman in New York, 1727.*

Mark: T B, monogram, crown above.

Inscription: $\overset{H}{I}$

Lent by Mrs. Richard S. Ely.

A. BLANCHARD. *Lexington, Kentucky, about 1800.*

19. MUG. Cylindrical body; moulded lip and bottom; flat (five-sided) scroll handle. H. 6 inches; D. 5 inches.

Mark: A. BLANCHARD, in long oval.

Inscription: Frankfort Presbyterian Church (script).

Lent by the First Presbyterian Church, Frankfort, Kentucky.

The city of Frankfort is situated upon the first parcel of ground surveyed and located in what is now the State of Kentucky. No record gives the exact date of the organization of the church, but from reliable information 1816 may be fixed upon as the year.

20. MUGS (2). Same as above. H. $4\frac{1}{4}$ and $4\frac{1}{4}$ inches; D. $3\frac{1}{2}$ and $3\frac{5}{8}$ inches.

Mark: A. BLANCHARD, in long oval.

Inscription: Frankfort Presbyterian Church (script).

Lent by the First Presbyterian Church, Frankfort, Kentucky.

HENDRIK BOELEN. *Son of Jacob Boelen; married Anneken Kourt; daughter Anna baptized, Nov. 28, 1686; died, 1755. See page xxiv.*

21. BASIN. Shallow depression domed in the center; moulded flaring rim. D. $15\frac{7}{8}$ inches.

Mark: HB, in shaped shield.

Inscription: None.

Lent by the Collegiate Church, New York.

22. **BEAKER.** Moulded foot with band of repoussé crosses; engraved with a band of interlacing strap-work inclosing scrolls of leaves and flowers and branches, which depend in three groups surrounding cartouches containing figures of *πιστις*, *ελπις* and *αγαπη*. H. $6\frac{3}{4}$ inches.

Mark: IB, in shaped shield.

Inscription: None.

Lent by the Reformed Church, Flatlands, Long Island.

The church at Flatlands (Amersfoort), Long Island, was founded in 1654, under the general pastorate of J. T. Polhemus.

Rev. Mr. Polhemus had his morning discourse at Flatbush, with his evening service alternately at Midwout and Breuckelen. In consequence of this arrangement Governor Stuyvesant was presented with the following remonstrance by the people of Brooklyn:

"Every fortnight on Sundays he comes here, only in the afternoon for a quarter of an hour, when he only gives us a prayer in lieu of a sermon, by which we can receive very little instruction; while often, while one supposes the prayer or sermon . . . is beginning, then it is actually at an end, by which he contributes very little to the edification of his congregation."

23. **BEAKERS (2).** Engraved with a band of interlaced strap-work inclosing scrolls of leaves, flowers, and branches. H. $6\frac{1}{2}$ inches.

Mark: IB, in shaped shield.

Inscription: None.

Lent by the Reformed Church, Bergen, New Jersey.

The Bergen Church (Jersey City) was founded in 1662. "In September the civil authorities of the village petitioned the governor and his council for a minister of the gospel, at the same time subjoining a subscription list, by which twenty-five persons had obligated themselves

**BEAKER, BY HENDRIK BOELEN. LENT BY THE RE-
FORMED CHURCH, FLATLANDS, LONG ISLAND**

yearly to contribute the amount of 417 guilders in seewan for his support. But the affairs of the province at this period were in such a bad condition . . . that . . . the petition had to be ignored, and Bergen, for almost a century afterwards (till 1750), remained without the services of a local pastor." The schoolmaster filled the minister's place.

"On May 26, 1678, Bergen's first communion set was bought at an expense of 74 guilders 10 stivers and consisted of the following articles: 'eight lbs. of pewter, being three plates and a pitcher of 6 guilder the pound, and two pewter beakers at 12 guilder apiece, and 1 el of Ossenburger linen.' On January 26, 1731, the pewter cups were changed for two silver ones, bought of Hendrikus Boele, and costing 519 guilders 10 stivers in seewan. These latter cups are still in possession of the Bergen Reformed Church, and do service at every communion." (Sketch of Early History of Reformed Dutch Church of Bergen—Versteeg.)

24. **TANKARD.** Tapering cylindrical body with moulded lip and base; flat domed cover, having coin of Louis XV, dated 1727 inlaid; serrated front edge; scroll purchase and moulded hinge; scrolled handle with cherub's head tip. H. 7 inches.

Mark: **HB**, in shaped shield.

Inscription: *a.* V C N, interlaced (script); *b.*

Coat-of-arms; *c.* $\begin{smallmatrix} I \\ M \end{smallmatrix}$

Lent by Mrs. Robert Temple Emmet.

25. **BEAKERS (2).** Repoussé ornament between the moulded lines of the foot; engraved with a band of interlacing strap-work inclosing scrolls of flowers and leaves, which depend in three groups and surround cartouches containing figures of SPES, FIDES, and CHARITAS. H. $6\frac{7}{8}$ inches.

Mark: **HB**, in shaped shield.

Inscription: As above, and on one, 1707.

Lent by the New Utrecht Reformed Church, Brooklyn, New York.

The church at New Utrecht was founded in 1677 with the Rev. Casparus Van Zuuren as clergyman. Flatbush, Flatlands, Brooklyn, and New Utrecht shared his services. In 1707, 530 guilders—or \$212—were paid for two cups for the communion service, which are the old silver ones now in use.

On the Sabbaths the clergyman was unable to be present, services were conducted by the voor-lezer, or clerk—probably the village schoolmaster. He performed the duties of sexton, chorister, lay reader, and catechist.

I. B. *New York, 1680.*

26. BEAKER. Flaring cylindrical body with moulded base; engraved with a band of interlacing strapwork inclosing scrolls of flowers and leaves, which depend in three groups surrounding cartouches inclosing figures of Faith, Hope, and Charity, and below, trees. H. $7\frac{1}{4}$ inches.

Mark: I B, in shield.

Inscription: Een tecken Van liefden en Waerhyt | tot Kercke aen Kinfouten | A. 1683.

Lent by the First Reformed Church, Kingston, New York.

Hermanus Blom, ordained to preach in the New Netherlands "both on water and on the land, and in all the neighborhood, but principally in Esopus," came to the new country upon the urgent request of the Classis, an ecclesiastical judicatory, like the Presbytery of the Presbyterian Church, and was assigned to the settlement of Esopus, Kingston, as the one most in need of his ministrations. The Church at that place was organized under his ministry in 1659. This Church was served until December, 1808, by pastors educated in universities of Holland and Germany, who preached in Dutch.

- 26.1. BAPTISMAL BASIN. Flaring moulded rim, spherical bowl (later foot added). D. $10\frac{1}{2}$ inches.

Mark: I B, quatrefoil below, in shield.

Inscription: Fredryck Flypie (script).

Lent by the First Reformed Church, Tarrytown, New York.

JACOB BOELEN. *Worked in New York from 1680; married Katharina Klock; daughter Byken baptized July 14, 1680; admitted as a Freeman in New York, 1698; a brother-in-law of Dirck Ten Eyck. See page xxiii.*

27. BOWL. Divided into six panels by repoussé ornament; two scroll handles ending in term; moulded base. D. $5\frac{1}{2}$ inches.

Mark: I B, in shaped shield. (The Boelen mark, but partially illegible.)

Inscription: a. A·V·V; b. TVV; c. M·S·R

Lent by Mrs. Robert Remsen.

28. BASINS (2). Flat domed depression; flaring moulded rim. D. $14\frac{1}{8}$ inches.

Mark: I B, in shaped shield.

Inscription: None.

Lent by the Collegiate Church, New York.

29. TANKARD. Moulded lip and moulded base embossed with cord; domed cover with flat top; serrated front edge and double spiral purchase; scroll

handle with moulded drop and shield tip. H. $5\frac{1}{2}$ inches.

Mark: I B, in shaped shield.

Inscription: Crest, ram's head and oak branches.

Lent by R. T. Haines Halsey.

EPHRAIM BRASHER. *This name appears in the New York Directory, 1786-1805; member of the Gold and Silver Smiths' Society. Brasher made the die for the famous doubloon known by his name.*

Lent by Christ Church, Poughkeepsie, New York.

In 1756 the Rev. Samuel Seabury became a missionary to Dutchess County by the appointment of the venerable Society. In 1764 he recorded the great opportunity for work in that county with the hope that "the Society will Send Some very pious young Clergyman to make them a Tender of his service." This clergyman proved to be Mr. John Beardsley, who was in charge of the parishes of Norwich and Groton, Conn. He found the people of Poughkeepsie eager for his services. As he wrote, "They have set about building a Church and are determined to procure 100 acres of land for a glebe."

Mark: P G, in oval.

Inscription: Ex dono Annae Peartree | Ecclesiæ Christi Presbyterianæ | apud Neo-Eboracenses 1730. (On two beakers the date is omitted.)

Lent by the First Presbyterian Church, New York.

The First Presbyterian Church of New York City was organized about 1716, with the Rev. James Anderson as the first minister. In 1719 the first church building was erected on Wall Street near Broadway. Later, another church was built on the corner of Beekman and Nassau Streets, then "in the fields," quite "out of town." In 1797, a third church, the Rutgers Street Church, was built. These three congregations were considered as one body until 1809, when they were separated by the Presbytery.

Lent by R. T. Haines Halsey.

BENJAMIN HALSTED. *Newark, N. J. Worked in New York as early as 1764. The following appeared in The New-York Gazette or The Weekly Post-Boy, Aug. 30, 1764.*

A WARNING AGAINST A NEW YORK SILVERSMITH.

“**A** Premonition to those Gentlemen that may hereafter have an Occasion to employ a Silver-Smith to beware of that Villain **BENJAMIN HALSTED**; lest they be bit by him, as I have been.

ANDREW BOWNE. "28-31.

That Benjamin Halsted recovered his reputation in later years is evident from his being intrusted by Bishop Hobart with the making of the communion service for Trinity Church.

57. **CHALICES (2).** Cup-shaped bowl; flaring lip; rounded knob; trumpet foot. H. $6\frac{3}{8}$ inches. *Mark:* Halsted (script), in shaped rectangle.

Inscription: a. I H S with cross in glory; b. Presented by the Ladies of Newark | to Trinity Church Newark N. J. A.D. 1806 (script).

Lent by Trinity Church, Newark, New Jersey.

Trinity Church, Newark, N. J., was organized about 1743.

58. **FLAGON.** Tapering cylindrical body; moulded lip and band; splayed base; curved handle, shield tip; flat moulded cover; scroll purchase; hinge drop. H. $10\frac{1}{4}$ inches.

Mark: Halsted (script), in shaped rectangle.

Inscription: a. I H S with cross in glory; *b.* Presented by the Ladies of Newark | to Trinity Church Newark N. J. A.D. 1806 (script).

Lent by Trinity Church, Newark, New Jersey.

59. PATENS (2). Oval, flat, domed depression; flaring edge; trumpet foot. H. $2\frac{5}{8}$ inches; L. $7\frac{5}{8}$ inches.

Mark: Halsted (script) in shaped rectangle.

Inscription: a. I H S with cross in glory; *b.* Presented by the Ladies of Newark to Trinity Church Newark N. J. A.D. 1806 (script).

Lent by Trinity Church, Newark, New Jersey.

The subjoined estimate of the cost of this service is interesting and is from the Hobart MS., endorsed in the Bishop's writing: "Estimate of plate for the Altar, by Mr. Halsted, Aug., 1806":

Estimate of the Cost of a Service of Plate for Trinity Church,
Newark, N. J.

One flagon, weight 40 oz.

Two collection plates, weight 28 oz. pair, round,
9 in. diameter.

Two bread plates, with feet, weight 26 oz. pair, oval, $8\frac{1}{2}$ in.
by $7\frac{1}{2}$ in.

Two chalices, pint, 20 oz. pair.

114 oz. at 10/ \$142.50

Workmanship and engraving 147.50

\$290.00

Those belonging to Trinity Church, New York, weigh as follows:

	Oz.
Flagon	49
Two chalices	30
Two round plates, for bread	33

The above charges are estimated as low as can be done to do justice; the weight may vary a little from the above, but cannot be reduced materially without making the articles too diminutive.

B. HALSTED & SON.

THOMAS HAMERSLY. *Worked in New York, 1756.*

60. SALVER. Circular, moulded, scalloped rim; three scroll feet. H. $1\frac{3}{4}$ inches; D. $12\frac{1}{2}$ inches.

Mark: T·H, in rectangle.

Inscription: THE GIFT OF MR. JOHN TROUP
TO GRACE CHURCH IN JAMAICA ON
NASSAU ISLAND IN THE PROVINCE OF
NEW YORK MAY y^e, I. 1761.

Lent by Grace Church, Jamaica, Long Island.

Jamaica was settled in 1656 largely by colonists from Hempstead, who were Independents or Presbyterians. By the Ministry Act of 1693 it was enacted that "there shall be called, inducted, and established a good, sufficient Protestant minister . . . within one year . . . to have the care of Jamaica and the adjacent towns and farms. . . . And . . . there shall be annually assessed . . . for each minister, £60 in country produce at money price." Through the help of a church building act passed in 1699, a house of worship was built at Jamaica.

63. TANKARD. Moulded rim and base; moulded cover with flat top and serrated front edge; scroll purchase; hinge drop; scroll handle with scroll on tip. H. $7\frac{7}{8}$ inches.

I. LEACOCK.

74. 1. BOWL. Spherical; splayed moulded foot with ribbed band. D. $6\frac{7}{8}$ inches.

Mark: a. I. LEACOCK, in rectangle; b. I·L, in rectangle.

Inscription: a. D·A·C· (script), double interlaced;
b. Presented | to | St John's Church, Salem. |
by Iane Hall.

Lent by Saint John's Church, Salem, New Jersey.

At the first settlement of the town of New Salem, there were a number of persons who were members of the Church of England. These in 1722 organized a church under the name of St. John's Episcopal Church of Salem. It was the second religious society in the town of New Salem, the Society of Friends being organized forty-six years earlier.

CHARLES LE ROUX. *Worked in New York, 1713 to 1745. He was assistant Alderman of the East*

Ward, 1735-1738. He engraved the seal of the mayoralty, New York City, in 1735. He made the following gold boxes for the Corporation for inclosing the seals of complimentary freedom: 1720, for Governor William Burnett, at a cost of £19 3s.; 1723, for Capt. Peter Solgard, £23 19s.; 1728, for Governor John Montgomery, £20 6s. 6d.; 1732, for Governor William Cosby, £20 11s. 6d.; 1733, for the Duke of Grafton, £14 8s.; 1743, for Governor George Clinton, £20; silver boxes—1728, for Capt. Covil Mayne, £1 2s. 9d. "For two silver, Guilt Boxes for the Freedoms of the Honble Major Alexander Cosby and Thomas Freeman, Esqr.," £7 1s. 11½d. He also made the box of gold for inclosing the seal of the Freedom presented to Andrew Hamilton of Philadelphia, 1735. See pages xxxi and xxxii.

75. **PORRINGER.** Handle pierced in keyhole pattern. D. 5½ inches.

Mark: C L

Inscription: P * S

Lent by R. T. Haines Halsey.

76. **TEAPOT.** Bell-shaped; with moulded lip and shoulder-band; moulded splayed base; slender octagonal spout ending in a griffin's head; high domed cover; round finial; straight handle sockets; wood handle with silver tip. H. 8 inches.

Mark: (obliterated) C.L.?

Inscription: D. B (script).

Lent by R. T. Haines Halsey.

Mark: G^BO, in trefoil.

Inscription: Deÿakenÿ van Midwoÿd (script).

Lent by the Reformed Church, Flatbush, Long Island.

Up to 1654, the Dutch on Long Island had had no minister or church, and were obliged to cross the East River to attend service. The evil became so great that Joannes Megapolensis, pastor at New Amsterdam, and a committee organized a church at Midwout (Flatbush) on February 9, 1654, with Johannes T. Polhemus, who was born in Holland and had served his church in Brazil until its evacuation by the Dutch, as its first pastor. It

40 *Part III American Silversmiths*

was he who first proposed an association of the American ministers and churches.

The following record is from the Deacons' or Poor Book of this Church (p. 94):

1697	Paid for two silver cups to be	
Apr. 17	used for the Lord's supper,	
	34 pieces of eight.	gl 408
	Further paid for the cups inas-	
	much as they were heavier	
	than the pieces of eight	7-10
	Further for pay for the making	94

I. O.

85. SUGAR SCISSORS. (About 1720.) Arms in geometric forms; tips shell-shaped. L. 5 inches. *Mark*: I:O, in oval.

B. R.

92. PATEN. Moulded rim; trumpet-shaped stem; moulded foot. H. $8\frac{1}{4}$ inches.

Mark: B R, in oval.

Inscription: None.

Lent by the Corporation of Trinity Church, New York.

As early as 1664 when New York came into possession of the English, stated services of the Church of England were held in the chapel of the Fort which then stood near the site of the present Bowling Green. In 1697 the Parish of Trinity Church came into existence, the charter being signed by Governor Fletcher. The

Lord Bishop of London, who was named in the charter as Rector, approved the choice by the parish of William Vesey, at that time lay-reader at King's Chapel, Boston, to be Trinity's first rector. He must first cross the seas for Holy Orders. The church building was opened in 1698 on the site of the present church, at that time just outside of the north gate of the city. Eight years later, the parish received by Royal grant the tract of land known as the Queen's Farm. This tract extended along the North River from the present site of St. Paul's Chapel to what is now known as Watts Street, and formerly belonged to Anneke Jans Bogardus. "At this period the Rector's salary was £100 per annum, while the compensation of the sexton was a suit of clothes for his son, and the privilege of collecting six shillings per annum from each of the pewholders who wished him to keep their pews clean."

"The vessels in use at Trinity Church before the arrival of those presented by Queen Anne were evidently borrowed from the set belonging to the Chapel in the Fort, known from 1693 to 1741, in which year it was destroyed by fire, as 'The King's Chapel.' In their address to the Bishop of London, June 17, 1709, the Vestry say:

'Neither can we omitt reminding your Lordship how we are still Obliged for the Loan & use of the Communion Plate of her Maties Chappel in the Fort in New York.'

"This plate was probably the Flagon, Chalice, Paten, and Baptismal Bason, engraved with the Royal Arms between the initials WM. R. now in the possession of the Corporation."

In the Vestry Records due acknowledgment is made to "the Queen's most excellt Majesty" that of her "princely bounty she had furnished & adorned the Sacred alter of our Church with such a magnificent Set of Plate."

American Weekly Mercury, March 23, 1727.

101. BAPTISMAL BASIN. Flat domed depres-sion; flat rim. D. $8\frac{1}{4}$ inches.

Mark: SS, in square.

Inscription: The Gift of M^r Iohn March, To S^t George's Church, in Hempsted, 1735. (script).

Lent by Saint George's Church, Hempstead, Long Island.

Saint George's Church owes its establishment to the Society for the Propagation of the Gospel. It was incorporated in 1735. The following quotations from the Proceedings of the Society give a glimpse of the source of its silver:

At a monthly meeting of the Society, in 1706, the Lord Bishop of London, reported that Her Majesty, of her princely grace and favor, had been pleased (through his lordship's hands) to allow five large Bibles, Common Prayer Books, and Books of Homilies, as also pulpit cloths, Communion table-cloths, silver chalices and patens, for each of the five churches in the government of New York, viz., Hempstead and Jamaica in Long Island, West Chester, Rye, and Staten Island.

Lent by Luke Vincent Lockwood.

105. STANDING CUPS (2). Cylindrical, rounded bottom; short, thick stem; moulded foot. H. 6 inches.

Mark: SS, in square.

Inscription: None.

Lent by the First Presbyterian Church, Southold, Long Island.

Southold was settled in September, 1640, by a party of thirteen under the leadership of the Rev. John Youngs, who crossed from New Haven. The formation of the church was coincident with the settlement of the town. Very strict was the government in this primitive community; the laws of the Bible were followed as a civil code and communion with the church was made a necessary qualification for admission to the privileges of a Freeman.

I. T. *Probably J. Ten Eyck. Worked in Albany during the early part of the eighteenth century.*

Mark: None.

Inscription: CHRIST CHURCH | SHREWSBURY.

Lent by Christ Church, Shrewsbury, New Jersey.

The history of this parish goes back more than two hundred years. The first church was either built or adapted from a dwelling house between 1703 and 1705. In 1708 Queen Anne presented the Communion service still in use, the offertory plates bearing the Tudor rose. The present church, built in 1769, still bears on its wooden steeple the English crown which the patriots so often tried to shoot off during the Revolution.

113. BOWL WITH COVER. Hemi-spherical bowl; trumpet foot; domed bezel cover with wire knob. H. $5\frac{3}{4}$ inches.

Mark: None.

Inscription: None.

Lent by Mrs. Eldridge Palmer.

with moulded base; engraved with a band of inter-
lacing strap-work inclosing scrolls of flowers and
leaves, three depending groups of branches of leaves
and flowers, and below figures of Faith, Hope, and
Charity. H. $7\frac{1}{2}$ inches.

Mark: V-I, in rectangle.

Inscription: None.

Lent by the Collegiate Church, New York.

N. VR.

118. BEAKERS (2). Flaring body on splayed and
moulded foot. H. $7\frac{5}{8}$ inches.

Mark: N·VR, in oval.

Inscription: a. SPREEK DAT WAAR IS EET
DAT GAAR IS EN DRINK DAT KLAAR
IS; b. BOSWYCK·NOV^r 1763.

Lent by the Reformed Church, Flatbush, Long
Island.

JACOBUS VAN DER SPIEGEL. *Was
working from 1685–1705. Admitted as Freeman,
New York, 1702; married Ann Sanders; daughter
Sara baptized February 7, 1694. Died about 1708.
See page xxiv.*

119. **BAPTISMAL BASIN.** Spherical bowl;
flaring rim covered with inscription, as below.
Moulded edge. D. 10 $\frac{3}{8}$ inches.

Mark: I^S·V, in a trefoil (clover-leaf).

Inscription: Op't bloote Waterftelt geen Hoop'.
t Was beter noÿt geboren; Maer ziet jets meer-
derinde doop, Zögaetmen noÿt Verloren Hoe
Christus door sÿn dierbaer Bloedt mÿ reynigt
van mÿn Sonden, endoor fÿn geest mÿ leeuendoet,
en waftmÿn nüÿle wonden.

(*Translation:* On the mere water (or external
ordinance) hope of freedom from condemnation
cannot rest. But on carefully considering the
nature and uses of Baptism, Faith apprehends
that Christ, by His precious blood, cleanses us
from the guilt and malady of sin, and causes us
to live unto God by His Spirit.)

Lent by the South Reformed Church, New York.

BEAKER, BY N. VR. LENT BY THE REFORMED
CHURCH, FLATBUSH, LONG ISLAND

This basin was made during the ministry of Henricus Selyns, one of the most eminent of the divines who came out from Holland to the early church. It was he and his consistory who applied for a charter, which when granted, May 11, 1696, was the first church charter issued in the colony. It was not secured, however, but by a considerable service of plate presented to the Governor. The inscription, which is in Low Dutch, was probably written by the Dominie.

120. TANKARD. Moulded rim; reeded base corded and surmounted by band of strawberry leaves; domed cover with flat top; serrated front edge; spiral purchase; scrolled handle with engraved drop; male head on tip. H. 7 inches.

Mark: $\overset{S}{I \cdot V}$, in trefoil (clover-leaf).

Inscription: G D, on handle.

Lent by R. T. Haines Halsey.

JOHANNES VAN DER SPIEGEL. *Born, 1666; died, 1716; brother of Jacobus; married Maria Leursen. See page xxv.*

121. TEASPOONS (2). Ladle-topped handles.
L. $4\frac{3}{4}$ inches.

Mark: I V S, in serrated rectangle.

Inscription: L D P.

Lent by R. T. Haines Halsey.

N. V.

122. SHOE BUCKLES (3). *a.* L. 2 inches; *b.* L. $1\frac{3}{4}$ inches.

Mark: N V, in rectangle.

Inscription: NFBA (on largest).

Lent by R. T. Haines Halsey.

PETER VAN DYCK. *Genealogy, 1684-1750.* Franz Glaesen Van Dyck, resident of New Amsterdam in 1655 (married Emmetze Dirks); their son Dirk Franzen (born in Amsterdam) married Urseltje Schepmoes April 25, 1674; son Peter baptized Aug. 17, 1684, married first Rachel LeRoux, second Cornelia Van Varick; son Dirk (Richard) baptized Dec. 4, 1717; married Elizabeth Strang of Rye. See page xxviii.

123. MUGS (2). Cylindrical tapering body; moulded base; curved handle with beaded rat-tail and oval on tip (one missing). H. $6\frac{1}{4}$ inches and $5\frac{7}{8}$ inches.

Mark: P·V·D, in oval.

Inscription: a. Sought Hamptown Church (script);
b. For the Church of Sought hamtun 6 Decemb^r 1739 (script).

Lent by the First Presbyterian Church, Southampton, Long Island.

124. TANKARD. Tapering cylindrical body; moulded lip and base; flat, moulded, engraved cover, serrated edge; double scrolled purchase; rat-tail on scrolled handle, repoussé tip. Nose added. H. 7 inches.

Mark: P V D, in oval.

Inscription: S D to A D

Lent by Mrs. Elihu Chauncey.

127. CUPS WITH TWO HANDLES (2).

Moulded base; scrolled handles with rat-tails. H. 4½ inches.

Mark: P. V. D. in oval.

Inscription: None.

Lent by Presbyterian Church, Setauket, Long Island.

The first settlements at Setauket were about 1650-53, though many had taken up land before that. One of the first clergymen to minister to the people was the Rev. Nathaniel Brewster, one of the first graduates of Harvard College and related to the celebrated Elder Brewster. In the Brookhaven (Setauket) Records, Vol. I, 1669, is the following extract:

"At a meeting of the Town Board it is agreed that a Meeting House be built."

Both the Church and the Dissenters met in this church or Town House. In 1714 a new meeting house was built for the Presbyterians alone. Not until 1811 was an Act of Incorporation for Caroline Church drawn up, as it was earlier a mission charge of the Society for the Propagation of the Gospel. "The original name of the parish and church was Christ Church, but was changed to Caroline in questionable compliment to the donor—Queen Caroline—of the silver communion silver." (Not the silver here exhibited.)

RICHARD VAN DYCK. *Son of Peter Van Dyck. Had a store in Hanover Square, New York, in 1750. See page xxx.*

128. BOWL. Sides flat-chased with flowers, leaves, and medallions (18th century pattern); splayed foot. H. 3½ inches; D. 7½ inches.

Mark: R V D, in rectangle.

Inscription: GxP.

Lent by R. T. Haines Halsey.

129. ALMS BASIN. Slightly domed bowl; flaring moulded rim. D. $7\frac{3}{4}$ inches.

Mark: a. D.V.V, in rectangle; b. Eagle, in diamond.

Inscription: Presented to the Episcopal Church of the Town of Yonkers. 1795. (script).

Lent by Saint John's Church, Yonkers, New York.

On September 21, 1693, by an Act of the Assembly the County of Westchester was divided into the two parishes of Westchester and Rye. The parish of Westchester included the towns of Westchester, Eastchester, Yonkers, and the Manor of Pelham, all the towns being taxed for the support of a minister. No church was built in Yonkers until 1753. The first settled minister in charge of the church at Philipsburgh, as St. John's was then called, was the Rev. Harry Munro, a missionary sent by the Society for the Propagation of the Gospel at the request of Frederick Phillipse, the third Lord of the Manor of Philipsburgh. Mr. Munro preached his first sermon at the church on Whitsunday, 1765.

The chalice was the gift of Miss S. Williams, a sister of the wife of Frederick Phillipse. It was probably used for the first time on Christmas Day, 1765.

130. STANDING CUP. Ovoid bowl with incised lines on lip and moulded base. H. $6\frac{3}{4}$ inches.

Mark: a. D V, in rectangle; b. Eagle, in diamond.

Inscription: The GIFT of Miss S. Williams to the EPISCOPAL Church at Phillipsburgh.

Lent by Saint John's Church, Yonkers, New York.

130. 1. TANKARD. Moulded lip and base with beading; serrated front edge of cover; scrolled pur-

chase; moulded hinge; scrolled handle with oval tip. H. $7\frac{1}{4}$ inches.

Mark: D.V.V., in rectangle.

Inscription: None.

Lent by the First Presbyterian Church, New York.

Lent by Christ Church, Rye, New York.

In 1695, pursuant to the Ministry Act of 1695, which provided for a clergyman of the Church of England "to have the care of Rye, Mamaroneck, and Bedford, comprising the precinct or parish of Rye," occurred the first election of vestrymen and wardens of this parish. In 1704 a missionary of the Society for the Propagation of the Gospel, Rev. Thomas Pritchard, was inducted as the first rector at Rye by Governor Cornbury, who asserted under the act of 1693 the right to induct rectors.

Inscription: (On paten) 1612 E H

Lent by Saint Peter's Church, Perth Amboy, New Jersey.

1612 E H

The parish of St. Peter's in Perth Amboy was organized in 1685, though no church edifice was erected until 1719, during which period divine services were held in a building given for the purpose by the Board of Lords Proprietors. A Royal Charter, dated July 30, 1718, was granted to the parish, according to the Parish Register.

164. BAPTISMAL BASIN. Deep rounded bowl; flaring moulded rim. D. 13 inches.

Mark: *a.* Lion passant; *b.* Black letter g (London, 1684).

GINIA

on handle with shield tip. Sheffield Plate. H. $12\frac{3}{8}$ inches.

Mark: None.

Inscription: None.

Lent by the Connecticut Farms Presbyterian Church, Union, New Jersey.

In Connecticut Farms, a township, like Rahway, set off from the borough of Elizabeth, the people "traveled their four or five miles every Sabbath Day to worship with their fathers in the old church at Elizabeth." About the year 1730 they were organized into a separate religious society and built a little frame church. This was burned to the ground during the Revolution by the British.

I. W. 1661.

171. CHALICE WITH PATEN-COVER. Cylindrical, slightly flaring bowl; stem flaring above and below the round knop with collars; moulded foot. H. $10\frac{5}{8}$ inches. The paten has moulded edge; flat splayed foot. D. $6\frac{7}{8}$ inches.
